### **Independent Auditors' Report**

To the Board of Education  
Gouverneur Central School District

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Gouverneur Central School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Independent Auditors' Report (continued)**

#### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Gouverneur Central School District, as of June 30, 2019, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Other Matters***

##### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, the schedule of changes in the District's total OPEB liability and related ratios, the schedule of the local government's proportionate share of the net pension liability, and the schedule of the local government's share of contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Gouverneur Central School District's basic financial statements. Other supplementary information listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America and/or New York State Education Department. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

**Independent Auditors' Report (continued)**

*Other Information - continued*

The supplementary information listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on the schedules.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2019, on our consideration of the Gouverneur Central School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Gouverneur Central School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Gouverneur Central School District's internal control over financial reporting and compliance.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019**

The following discussion and analysis of Gouverneur Central School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2019. This section is a summary of the School District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and other financial statements to enhance their understanding of the School District's financial performance. This section is only an introduction and should be read in conjunction with the School District's financial statements, which immediately follow this section.

**DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY**

Gouverneur Central School District (the "School District") is considered a Rural School District. The School District has land area of approximately 226 square miles and an estimated population of 11,044. Included in the district are all of the Village of Gouverneur, all of the Town of Gouverneur, and portions of the Towns of DeKalb, Edwards, Fowler, Hermon, Macomb, Pitcairn, Rossie, and Antwerp. It is located in the western portion of St. Lawrence County, in the northern sector of New York State.

The School District operates under a locally-elected Board form of government consisting of nine members elected at-large for staggered three year terms. The Board of Education is the policy-making body of the School District. The President and the Vice President are elected by the Board members. The President of the Board is the chief fiscal officer of the School District. The board must ensure that district expenditures do not exceed the budget approved by the voters.

The duties of the administrative offices of the School District are to implement the policies of the Board of Education and supervise the operation of the school system. The Superintendent of Schools is the chief executive officer.

The School District is staffed by 289 full-time and part-time employees who provide services to approximately 1,427 students and other community members. The School District currently operates an elementary school (PK-4), one middle school (5-8) and one high school (9-12). The district runs 22 buses and averages 2,070 miles daily.

Extraclassroom Activity Funds – These funds are considered a component unit of the School District. Financial statements for these funds can be found in this report.

Parent Teacher Organizations and Booster Clubs – The School District is not involved in the budgeting or management, is not responsible for any debt, and has minimal influence over these organizations.

See paragraph on supplementary schedules included in auditors' report.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019  
(CONTINUED)**

**FINANCIAL HIGHLIGHTS**

- Among major funds, the General Fund had \$34,922,434 in incoming monies and \$35,066,191 in monies going out. The General Fund's balance decreased \$143,757 from the 2017-18 fiscal year. The district established additional reserves of \$349,080 (overall reserves decreased \$439,073) to protect the school district and the residents against hard fiscal times in the future. The 2018-19 tax levy set by the Board of Education was a 5.35% increase from the prior year which did not exceed the tax cap limit. Therefore, the taxpayers of the Gouverneur CSD will qualify for the tax rebate.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The School District's annual report consists of three parts: management's discussion & analysis, the basic financial statements, and required supplementary information.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

This section presents Management's Discussion and Analysis (MD&A). It precedes the financial statements and its purpose is to put current financial performance in perspective relative to past performance and future expectations.

**Reclassifications**

Certain accounts in prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

**BASIC FINANCIAL STATEMENTS**

The basic financial statements include two kinds of statements that present different views of the School District, district-wide and fund financial statements.

**District-wide Financial Statements**

The first two financial statements that follow are district-wide financial statements that provide both short-term and long-term information about the School District's overall financial status.

The district-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the School District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019  
(CONTINUED)**

**District-wide Financial Statements (continued)**

All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the School District's net position and how it has changed. Net position - the difference between the School District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources - is one way to measure the School District's financial health or position.

- Over time, increases or decreases in the School District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the School District's overall health, you need to consider additional non-financial factors such as changes in the School District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the School District's activities are shown as Governmental activities. Most of the School District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and State formula aid finance most of these activities.

**Fund Financial Statements**

The remaining statements are fund financial statements that focus on individual parts of the School District, reporting the District's operations in more detail than the district-wide statements. The fund financial statements concentrate on the District's most significant funds with all other non-major funds listed in total in one column. Funds are accounting devices the School District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants. The School District establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as Federal grants).

The District has two kinds of funds:

***Governmental Funds*** - include most of the School District's basic services. They generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending.

- The governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- The governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs.
- Because this information does not encompass the additional long-term focus of the district-wide statements, additional information detailed in Note 2 of the financial statements explains the relationship (or differences) between them.

***Fiduciary Funds*** - the School District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds.

- The *fiduciary funds* statements provide information about financial relationships in which the School District acts solely as a trustee or agent for the benefit of others.

See paragraph on supplementary schedules included in auditors' report.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019  
(CONTINUED)**

**Fund Financial Statements (continued)**

- The School District is responsible for ensuring the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.
- The School District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

**Notes to the Financial Statements**

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

Figure A-1 summarizes the major features of the School District's financial statements, including the portion of the School District's activities they cover and the types of information they contain.

Total net position increased by \$1,007,396 because of the following:

- Total Assets increased \$222,732. Current and other assets decreased by \$411,010 as a result of expenditures for the capital project and lower due from state and federal amounts. Capital assets increased \$24,649 due to the net effect of the on-going capital project, purchases for buses and equipment, retainage, and the annual depreciation expense on the District's capital assets. The District's proportionate net share of the pension assets increased by \$609,093.
- The District recorded its proportionate share of the Deferred Outflows of Resources related to pensions of \$6,128,600, for a decrease of \$1,148,318 from 2017-18 in accordance with the GASB 68 standard, in its fifth year of implementation. The District recorded deferred outflows of \$6,577,203 of resources related to the Other Post Employment Benefits (OPEB) in accordance with the GASB 75 standard implemented in 2017-2018, for an increase of \$4,441,209.
- Total Liabilities increased \$983,505. Long-term Liabilities increased by \$1,912,973 from a combination of 1) the District's Actuarial calculated increase to Other Post-Employment Benefits in the amount of \$3,163,145 to \$89,250,511 for post-employment healthcare benefits of current and retired employees of the District; 2) the scheduled debt repayment on the 2012 and 2018 Serial Bonds of \$1,645,000; and 3) The District recorded its proportionate share of the pension liability \$728,706, this decreased \$382,125 from 2017-18. Other Liabilities decreased \$929,468 as a result of the reduction of retainage in the amount of \$609,724 and other liabilities decrease of \$470,415 for the recognition of bond premium over the life of the bond decreasing interest expense, offset by the increase in the

**Expenses:**

General Support: This Consists of the Board of Education, Central Administration, Finance, Personnel, Maintenance, Utilities, Central Printing, Central Data Processing, Fire and Liability Insurance, Employee Benefits, and BOCES Administrative costs. This area has decreased 16.0% due to a combination of BOCES fees and services; maintenance and plant; and employee benefits that were higher in the prior year.

Instruction and Transportation: The instructional area had a decrease of 16.0%. This covers contractual agreements for salaries and employee benefits, as well as the purchase of supplies and materials. Transportation expenses increased 11.9% because of the net of increases to the transportation contract prices, decreases in price for diesel fuel, and the reduction of bus repairs.

Debt Service Expenses: This area increased \$467,588 or 112.9% because the District had interest on Serial Bond payments issued in June of 2018 as well as the 2012 Serial Bonds.

School Lunch Program: This area decreased \$39,114 or 4.4% due to the net of increases in food purchases, salaries, materials and supplies, offset by the reduction of contractual expenditures and benefits.

**Governmental Activities**

The following analysis compares the total cost of services provided by the District in relation to the net cost of providing the service after considering program service revenues generated and program operating grants.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019  
(CONTINUED)**

**FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS**

**General Fund Budgetary Highlights**

Gouverneur Central School District's General Fund had \$34,922,434 in incoming monies and \$35,066,191 in monies going out, including transfers. The General Fund's balance decreased \$143,757. For the 2018-19 fiscal year, we were able to limit the levy increase to 5.35%, which was within the tax cap limit.

The 2018-19 comparison of final budget to actual expenditures and year-end encumbrances highlights a few areas in the District's budget with large variances. These areas are Central Services; Teaching – Regular School; Programs for Students with Disabilities; Pupil Transportation; and Employee Benefits.

The Central Services area includes the utilities; repairs; maintenance contracts; supplies and custodial and maintenance staff for the District. The District began participating in a cooperative bid which resulted in a reduction of the District's natural gas costs. Electricity costs continue to decrease for the District. The completed capital projects at the elementary and middle school included installation of lighting and boilers to increase efficiency. In addition to the low electricity prices, the District tries to reduce its electricity usage where it can.

The major excesses in Teaching-Regular School is generated from instructional salaries and BOCES services. Instructional salaries are budgeted in General Fund but if grant funding is sufficient, some salaries are then charged to a grant. BOCES services are estimated during the budget process. An amount is built into the budget for needs not identified at budget time. These funds are then available if the need arises.

The Program for Students with Disabilities is highly dependent upon the students which can change daily. Staffing and service needs are highly volatile. Families and students move in and out of the district throughout the school year. The District must be fiscally prepared to provide the services in-house or contract with BOCES or another district if need be. This year we were able to meet all of the students' needs.

Pupil Transportation consists of purchases of buses; purchase of supplies including diesel fuel at NYS Contract price which is a variable price; utilities and insurance on the bus garage; and costs of our transportation contracts. The actual price per gallon increased during the 2018-19 fiscal year in addition the number of gallons purchased increased. resulting in a significant surplus in addition to the number of gallons purchased.

The variance in Employee Benefits is affected by two factors. The factors are benefits allocated to grants and the Cafeteria Fund which are unknown at the time of budget development and the amount of current and retirees' contributions towards the benefits.

**Current Financial Issues and Concerns**

The financial and economic condition of the School District could be affected by a variety of factors, some of which are beyond the School District's control. There can be no assurance that adverse events in the townships, state and in other jurisdictions in the country, including, for example, the seeking by a municipality or large taxable property owner of remedies pursuant to the Federal Bankruptcy Code, Tax Certioraris or otherwise, will not occur which might adversely affect the School District.

See paragraph on supplementary schedules included in auditors' report.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2019  
(CONTINUED)**

The School District is heavily dependent on financial assistance from the State and Federal Governments and the local property tax. These issues require management to plan carefully and prudently to provide the resources to meet student needs of the next several years.

In conclusion, the Gouverneur Central School District has committed itself to financial stability for many years. The School District plans to continue its sound fiscal management to meet the challenges of the future.

**CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT**

**FOR THE YEAR ENDED JUNE 30, 2019**

Amounts reported for governmental activities in the statement of net position are different

Net Change in Fund Balances - Total Governmental Funds \$ (577,868)

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceed depreciation in the current period, net of related losses on disposal of capital assets

Capital Outlays - Net	1,579,825
Depreciation Expense	(1,413,756)
Additions to Vehicles and Equipment	514,869

In the Statement of Activities, the gain/loss on the disposal of assets is reported as an increase/decrease in the financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the assets disposed. (46,565)

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. This is the amount of debt repayments made in the current period. 1,645,000

Proceeds from bond premiums are reported in governmental funds as revenues, however in the Statement of Activities, the unearned revenue is allocated over the life of the bonds as a reduction of interest expense. This is the amount that the current year premiums received exceeds the amortization in the period. 513,504

(Increases) decreases in accrued interest on bonds payable less related bond premium recognized in the Statement of Activities do not provide for or require the use of current financial resources and, therefore, are not reported as revenues or expenditures in the governmental funds. (26,902)

(Increases) decreases in accrued compensated absences reported in the Statement of Activities do not provide for or require the use of current financial resources and, therefore, are not reported as revenues or expenditures in the governmental funds. (12,703)

On the Statement of Activities, the actual and projected long term expenditures for post employment benefits are reported, whereas, on the governmental funds only the actual expenditures are recorded for post employment benefits. (1,034,837)

(Increases) decreases in proportionate share of net pension asset/liability reported in the Statement of Activities do not provide for or require the use of current financial resources and therefore, are not reported as expenditures in the governmental funds

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2019**

**NOTE 1 - SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Gouverneur Central School District (the “District”) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**REPORTING ENTITY**

The Gouverneur Central School District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of nine members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, *The Financial Reporting Entity*, as amended by GASB Statement 39, *Component Units*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District and other organizational entities determined to be includable in the District’s financial reporting entity. The decision to include another organizational entity in the District’s reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on application of these criteria, a brief description of extraclassroom activity funds included in the District’s reporting entity follows.

**Extraclassroom Activity Funds**

The Extraclassroom Activity Funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be found at the District’s business office. The district accounts for assets held as an agent for various student organizations in an agency fund.

**JOINT VENTURE**

The District is a component district in the St. Lawrence-Lewis BOCES. A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs that provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

**(CONTINUED)**

**NOTE 1 - SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES (continued)**

**JOINT VENTURE (continued)**

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year, the District was billed \$5,649,279 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$2,748,917. Financial statements for the BOCES are available from the BOCES administrative office.

**BASIS OF PRESENTATION**

**District-wide Statements**

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, State aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements**

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District reports the following major governmental funds:

- **General Fund** - this is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.
- **Special Revenue Funds** - these funds account for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes, child nutrition operations, and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.
- **Capital Projects Funds** - these funds are used to account for the financial resources used for acquisition, construction, or major repair of capital facilities. For these funds, each capital project is assessed to determine whether it is a major or non-major fund. Those capital projects that are determined to be major are reported in separate columns in the financial statements. Those that are determined to be non-major are reported in the supplemental schedules either separately or in the aggregate.
- **Debt Service Fund** - this fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities

The District reports the following fiduciary funds:

- **Fiduciary Funds** - funds used to account for fiduciary activities. Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the district-wide financial statements, because their resources do not belong to the District, and are not available to be used.
  - **Private purpose trust funds:** These funds are used to account for trust arrangements in which principal and income benefits annual third party awards and scholarships for students. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.
  - **Agency funds:** These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups or extraclassroom activity funds and for payroll and employee withholding.

**MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 90 days after the end of the fiscal year except for real property taxes, which are considered to be available if they are collected within 60 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

**CASH AND INVESTMENTS**

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts.

Investments are stated at fair value.

**PROPERTY TAXES**

Real property taxes are levied annually by the Board of Education no later than September 1, and become a lien on November 1. Taxes are collected during the period September 1 to October 31.

Uncollected real property taxes are subsequently enforced by the Counties in which the District is located. The Counties pay an amount representing uncollected real property taxes transmitted to the Counties for enforcement to the District no later than the following April 1.

**ACCOUNTS RECEIVABLE**

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

**INVENTORIES AND PREPAID ITEMS**

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items are payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the district-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

**INTERFUND TRANSACTIONS**

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditure and revenues to provide financing or other services.

In the district-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 6 for a detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenues activity.

**CAPITAL ASSETS**

Capital assets are reported at actual cost for acquisitions subsequent to June 30, 1980. For assets acquired prior to June 30, 1980, estimated historical costs, based on appraisals conducted by independent third-party professionals were used. Donated assets are reported at estimated fair market value at the time received. Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the district-wide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings	\$ 5,000	straight-line	30 years
Building improvements	\$ 5,000	straight-line	10-15 years
Furniture and equipment	\$ 5,000	straight-line	5-10 years
Vehicles	\$ 5,000	straight-line	5-10 years

**DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES**

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has four items that qualify for reporting in this category. First is the deferred charge on refunding reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportion share of total contributions to the pension systems not included in pension expense. The third item is the District contributions to the pension systems (TRS and ERS Systems) and OPEB subsequent to the measurement date. The fourth item relates to OPEB reporting in the district wide Statement of Net Position. This represents the effect of the net change in the actual and expected experience.

In addition to liabilities, the Statement of Net Position or Balance Sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has four items that qualify for reporting in this category. First arises only under a modified accrual basis of accounting and is reported as unavailable revenue – property taxes. The second item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension liability (ERS System) and difference during the measurement periods between the District's contributions and its proportion share of total contributions to the pension systems not included in pension expense. The third item is revenues from grants received that have met all other eligibility requirements except those related to time restrictions. The fourth item is related to OPEB reported in the district-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs.

**UNEARNED REVENUES**

Unearned revenues are reported when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the District has legal claim to the resources, the liability for unearned revenues is removed and revenues are recognized.

**VESTED EMPLOYEE BENEFITS**

**Compensated Absences**

Compensated absences consist of unpaid accumulated annual sick leave and vacation time.

The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation, or death, employees may contractually receive a payment based on unused accumulated sick leave.

Consistent with GASB Statement 16, Accounting for Compensated Absences, the liability has been calculated using the vesting method and an accrual for that liability is included in the district-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the funds statements, only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

**Other Benefits**

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the District provides health insurance coverage and survivor benefits for retired employees and their survivors in accordance with the provisions of various employment contracts in effect at the time of retirement. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee under certain employment contracts. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure or operating transfer to other funds in the General fund, in the year paid.

The School District follows GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions." The School District's liability for other postemployment benefits has been recorded in the Statement of Net Position, in accordance with the statement. See Note 8 for additional information.

**SHORT TERM DEBT**

The District may issue Revenue Anticipation Notes (RAN) and Tax Anticipation Notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued.

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long- term financing within five years after the original issue date.

The District may issue deficiency notes up to an amount not to exceed 5% of the amount of that same year's annual budget in any fund or funds arising from revenues being less than the amount estimated in the budget for that fiscal year. The deficiency notes may mature no later than the close of the fiscal year following the fiscal year in which they were issued. However, they may mature no later than the close of the second fiscal year after the fiscal year in which they were issued, if the notes were authorized and issued after the adoption of the budget for the fiscal year following the year in which they were issued.

**ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS**

Payables, accrued liabilities and long-term obligations are reported in the district-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other postemployment benefits payable and compensated absences that will be paid from governmental funds, are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

**RESTRICTED RESOURCES**

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes.

**EQUITY CLASSIFICATIONS**

**District-wide Statements**

In the district-wide statements there are three classes of net position:

- **Net investment in capital assets** – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.
- **Restricted net position** – reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position** – reports the balance of net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the District.

**Funds Statements (continued)**

In the fund basis statements there are five classifications of fund balance:

**Non-spendable** fund balance – Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. See detail of balances in chart above.

**Restricted** – Includes amounts with constraints placed on the use of resources, either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the General Fund are classified as restricted fund balance. The School District has established the following restricted fund balances:

**Capital**

According to Education Law §3651, must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the General Fund under Restricted Fund Balance.

**Debt Service Reserve Fund**

According to General Municipal Law §6-1, the Mandatory Reserve for Debt Service must be established for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations which remain outstanding at the time of sale. The funding of the reserve is from the proceeds of the sale of District property or capital improvement. This reserve is accounted for in the Debt Service Fund.

**Employee Benefit Accrued Liability**

According to General Municipal Law §6-p, the Employee Benefit Accrued Liability Reserve must be used for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. This reserve is accounted for in the General Fund.

**Liability Claims and Property Loss**

According to Education Law §1709(8)(c), must be used to pay for liability claims and property loss incurred. Separate funds for property loss and liability claims are required, and these reserves may not in total exceed 3% of the annual budget or \$15,000, whichever is greater. This type of reserve fund may be utilized only by school districts, except city school districts with a population greater than 125,000. This reserve is accounted for in the General Fund.

**Insurance**

According to General Municipal Law §6-n, the Insurance Reserve must be used to pay liability, casualty and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance).

The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the Insurance Reserve; however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. This reserve is accounted for in the General Fund.

**Repair Reserve Fund**

According to General Municipal Law §6-d, must be used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education without voter approval may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the General Fund.

**Retirement Contributions Reserve Fund**

According to General Municipal Law §6-r, all expenditures made from the retirement contributions reserve fund must be used for financing retirement contributions to the New York State and Local Employees' Retirement System. This reserve is established by Board resolution and is funded by budgetary appropriation and such other reserves and funds that may be legally appropriated. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board. This reserve is accounted for in the General Fund. Effective April 1, 2019, a Board may adopt a resolution establishing a sub-fund for contributions to the New York State Teachers' Retirement System. During a fiscal year, the Board may authorize payment into the sub- fund of up to 2% of the total covered salaries paid during the preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year. The sub-fund is separately administered, but must comply with all the existing provisions of General Municipal Law §6-r.

**Tax Certiorari**

According to Education Law §3651.1-a, must be used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies. This reserve is accounted for in the General Fund.

**Unemployment Insurance**

According to General Municipal Law §6-m, must be used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. This reserve is accounted for in the General Fund.

**Workers' Compensation**

According to General Municipal Law §6-j, must be used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. This reserve is accounted for in the General Fund.

**NOTE 1 - SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES (continued)**  
**EQUITY CLASSIFICATIONS (continued)**

**Committed** – Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the school districts highest level of decision making authority, i.e., the Board of Education. The School District has not committed fund balances as of June 30, 2019.

**Assigned** – Includes amounts that are constrained by the school district's intent to be used for specific purposes, but are neither restricted or committed. All encumbrances of the General Fund are classified as Assigned Fund Balance in the General Fund.

**Encumbrances**

Encumbrance accounting, under which purchase orders, contracts and other commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as restricted fund balance in all funds other than the General Fund, since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year.

**Reserve for Insurance Recoveries**

Reserve for Insurance Recoveries (Education Law §1718(2)) is used at the end of the fiscal year to account for unexpended proceeds of insurance recoveries. They will be held there pending action by the Board on their disposition. This reserve will not be used if the insurance recovery is expended in the same fiscal year in which it was received. The reserve is accounted for in the general fund.

**Unassigned** – Includes all other General Fund amounts that do not meet definition of the above four classifications and are deemed to be available for general use by the School District and could report a surplus or deficit. In funds other than the general fund, the unassigned classification is used to report a deficit fund balance resulting from overspending for specific purposes for which amount had been restricted or assigned. In accordance with state guidelines, unassigned fund balance in the general fund includes the following reserve:

**Reserve for Tax Reduction**

Reserve for Tax Reduction ((Education Law §1604(36) and §1709(37)) is used for the gradual use of the proceeds of the sale of District real property where such proceeds are not required to be placed in the mandatory reserve for debt service. Specifically, the District is permitted to retain the proceeds of the sale for a period not to exceed ten years, and to use them during that period for tax reduction. The reserve is accounted for in the general fund.

**Unassigned Fund Balance**

NYS Real Property Tax Law §1318 limits the amount of unexpended surplus funds a school district can retain to no more than 4% of the School District's budget for the General Fund for the ensuing fiscal year. Non-spendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation. The portion of the District's fund balance subject to the New York State Real Property Tax Law §1318 limit exceeded the amount allowable, which is 4% of the District's budget for the upcoming school Year. Actions the District plans to pursue to address this issue include the development of a multi-year financial plan to estimate future fund balance over time and one-time expenditures to reduce fund balance.

When more than one classification of fund balance of the District are eligible to be utilized for an expenditure of the District, the order in which the fund balance classifications will be utilized will be as follows:

- Restricted fund balance for which action has been taken by the Board of Education, a designated school official, or by the voters of the District, specifically designating funds to the expenditure;
- Committed fund balance for which action has been taken by the Board of Education, a designated school official, or by the voters of the District, specifically designating funds to the expenditure;
- Assigned fund balance created specifically for the expenditure (encumbered fund balance);
- Assigned fund balance within funds other than the General Fund of the District to which the expenditure relates;
- Unassigned fund balance.

**BUDGETARY PROCEDURES AND BUDGETARY ACCOUNTING**

The District administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are adopted:

- General Fund

The voters of the District approved the proposed appropriation budget for the General Fund. Appropriations are adopted at the program line item level. Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. There were supplemental appropriations of \$5,470 for gifts and donations, revenue from a donation for wrestling uniforms and a mini grant from the Village of Gouverneur. There were additional appropriated funds for a capital reserve of \$1,031,089. There were no budget reductions for the year ending June 30, 2019.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

There is no budget and actual comparison for the Special Aid Fund because there is not a legally authorized (appropriated) budget.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

**NEW ACCOUNTING STANDARDS**

The District has adopted and implemented all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2019, the District implemented the following applicable new standards issued by GASB:

GASB has issued Statement No. 83, *Certain Asset Retirement Obligations*, effective for the year ending June 30, 2019.

GASB has issued Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*, effective for the year ending June 30, 2019. This Statement improves the information disclosed in the notes to governmental financial statements related to debt including direct borrowings and direct placements.

**FUTURE ACCOUNTING STANDARDS**

GASB has issued Statement No. 84, *Fiduciary Activities* effective for the year ending June 30, 2020. This statement improves guidance regarding identification of fiduciary activities for accounting and reporting purposes.

GASB has issued Statement No. 87, *Leases*, effective for the year ending June 30, 2021.

GASB has issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, effective for the year ending June 30, 2021.

GASB has issued Statement No. 91, *Conduit Debt Obligations*, effective for the year ending June 30, 2022.

The school district will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

**NOTE 2 - EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS**

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

**TOTAL OF GOVERNMENTAL FUND BALANCES VERSUS NET POSITION OF GOVERNMENTAL ACTIVITIES**

Total fund balances of the District's governmental funds differ from "net position" of governmental activities reported in the Statement of Net Position. This difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheet, as applied to the reporting of capital assets and long-term liabilities, including pensions.

**Long-term Assets**

The costs of building and acquiring capital assets (land, buildings, and equipment) financed from the governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the Balance Sheet. However, the Statement of Net Position includes those capital assets among the assets of the District as a whole, and their original costs are expensed annually over their useful lives.

Original cost of capital assets	\$ 62,336,620
Accumulated depreciation	<u>(21,527,509)</u>
Net Capital Assets	<u>\$ 40,809,111</u>

**Other Liabilities**

Other liabilities such as retainage held in the capital construction project are reported in the Statement of Net Position but not in the governmental fund statements because they are included in carryover encumbrance. Balances at year end were:

Retainage	<u>\$ 6,187</u>

**Long-term Liabilities**

Long-term liabilities are reported in the Statement of Net Position but not in the governmental fund statements because they are not due and payable in the current period. Balances at year end were:

Bonds Payable	\$ 22,400,000
Compensated Absences	101,878
Bond Interest Payable	62,652
Unamortized Bond Premium	2,205,750
Other Post-employment Benefits	<u>89,250,511</u>
Total	<u>\$ 114,020,791</u>

**Pension**

Pension differences occur as a result of changes in the District's proportion of the collective net pension asset/liability and differences between the District's contributions and its proportionate share of the total contributions to the pension system:

Pension Asset	\$ 1,065,483
Pension Liability	<u>(728,706)</u>
	<u>\$ 336,777</u>

**Deferred Outflows and Inflows of Resources**

In addition to assets and liabilities, the statement of Net Position will sometimes report a separate section for deferred outflows and inflows of resources. The separate financial statement element, deferred outflows of resources, represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The separate financial statement element, deferred inflows of resources, represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. Outflows and Inflows of resources were:

Deferred Outflow of Resources	\$ 12,705,803
Deferred Inflows of Resources	<u>(14,540,917)</u>
	<u>\$ (1,835,114)</u>

**STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE VERSUS STATEMENT OF ACTIVITIES**

Differences between the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of three broad categories. The amounts shown below represent:

**Long-term Revenue Differences**

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available," whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

**Capital Related Differences**

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.

**Long-term Debt Transaction Differences**

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

**NOTE 3 - CASH AND INVESTMENTS**

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District's investment policies, as discussed previously in these Notes. Deposits are valued at cost, or cost plus interest, and are categorized as either:

- A. Insured or collateralized with securities held by the District or by its agent in the District's name, or
- B. Collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name, or
- C. Uncollateralized.

Total financial institution bank balances at year-end, per the bank, are categorized as follows:

A.	\$ 250,000
B.	\$ 13,823,602
C.	-

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year-end includes \$5,551,779 within the governmental funds.

**Teachers' Retirement Systems (TRS)**

The District participates in the New York State Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as, death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of New York. The System is governed by a 10 member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS.

Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding the System, may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYSSTR Comprehensive Annual Financial report which can be found on the System's website at [www.nysstrs.org](http://www.nysstrs.org).

**Employees' Retirement Systems (ERS)**

The District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at: [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

**Contributions**

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0 to 3.5 percent of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education law.

The District is required to contribute at a rate determined actuarially by the Systems. The District contributions made to the Systems were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years were:

	<u>NYSTRS</u>	<u>NYSERS</u>
2018-2019	\$ 941,000	\$ 459,000
2017-2018	\$ 1,115,000	\$ 461,000
2016-2017	\$ 1,217,000	\$ 451,000

Since 1989, The TRS' billings have been based on the Chapter 62 of the Laws of 1989 and the State of New York. This legislation requires participating employers to make payments on a current basis.

ERS has provided additional disclosures through entities that elected to participate in Chapter 260, 57, and 105.

The State Legislature authorized local governments to make available retirement incentive programs with estimated total costs of \$14,275 of which \$14,275 was charged to expenditures in the Governmental Funds in the current fiscal year.

**PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS**

At June 30, 2019, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2019 for ERS and June 30, 2018 for TRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

For the year ended June 30, 2019, the District recognized pension expense of \$531,773 for ERS and the actuarial value of \$820,425 for TRS. At June 30, 2019 the District's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in the pension expense as follows:

Thereafter	-	123,519

**Actuarial Assumptions**

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date.

Significant actuarial assumptions used in the valuations were as follows:

	ERS	TRS
Measurement Date	March 31, 2019	June 30, 2018
Actuarial Valuation Date	April 1, 2018	June 30, 2017
Investment Rate of Return	7.0%	7.25%

Inflation Rate	2.5%	2.25%

For ERS, annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on MP-2014. For TRS, annuitant mortality rates are based on July 1, 2009 – June 30, 2014 System's experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014.

For TRS, the actuarial assumptions used in the June 30, 2017 valuation are based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

**DISCOUNT RATE**

The discount rate used to calculate the total pension liability was 7.0% for ERS and 7.25% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**SENSITIVITY OF THE PROPORTIONATE SHARE OF THE NET PENSION LIABILITY TO THE DISCOUNT RATE ASSUMPTION**

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0% for ERS and 7.25% for TRS, as well as what the District's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0% for ERS and 6.25% for TRS ) or 1-percentage-point higher (8.0% for ERS and 8.25% for TRS) than the current rate :

**PAYABLES TO THE PENSION PLAN**

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31<sup>st</sup>. Accrued retirement contributions as of June 30, 2019 represent the projected employer contributions for the period of April 1, 2019 through June 30, 2019 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2019 amounted to \$126,481.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2019 are paid to the System in September, October, and November 2019 through a state aid intercept. Accrued retirement contributions as of June 30, 2019 represent employee and employer contributions for the fiscal year ended June 30, 2019 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2019 amounted to \$1,146,676.

**GENERAL INFORMATION ABOUT THE OPEB PLAN**

**Plan Description**

The District provides post employment coverage (health insurance, life insurance, etc.) to retired employees in accordance with the provisions of various employment contracts. The benefit levels, employee contributions, and employer contributions are governed by the District's contractual agreements. The specifics of each contract are on file at the District offices and are available upon request. The plan is a single employer, defined benefit plan administered by the School District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the School District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Plan does not issue separate financial statements because there are no assets legally segregated for the sole purpose of paying benefits under the plan.

**Benefits Provided**

The District provides healthcare for retirees and their dependents. The benefit terms are dependent on which contract each employee falls under and required age and service terms. The specifics of each contract are on file at the District's offices and are available upon request.

**Employees Covered by Benefit Terms**

At June 30, 2019, the following employees were covered by the benefit terms.

**Total OPEB Liability**

The District's total OPEB liability of \$89,250,511 was measured as of July 1, 2018, and was determined by an actuarial valuation as of July 1, 2018.

Actuarial Assumptions and Other Inputs – The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	3.87%
Salary Scale	3.00%
Rate of Inflation	2.40%
Marital Assumption	70.00%
Participation Rate	100.00%
Healthcare Cost Trend Rates	7.50% for 2020, decreasing to an ultimate rate of 4.13% for 2089 and later years

The long-term bond rate is based on the Bond Buyer Weekly 20-Year Bond GO Index as of the measurement date (or the nearest business day thereto).

Mortality rates were based on the sex-distinct RPH-2014 Mortality Tables for employees and healthy annuitants, sex distinct, with generational mortality adjusted to 2006 with Scale MP-2014, and projected forward with scale MP-2018.

Rates of turnover and retirement rates are based on the experience under the New York State Employees' Retirement System (ERS) and the New York state Teachers' Retirement System (TRS) as prepared by the Department of Civil Service's actuarial consultant in the report titled Development of Recommended Actuarial Assumptions for New York State/SUNY GASB Valuation (December 2017)

Election percentage: It was assumed that 100% of future retirees eligible for coverage will elect retiree group benefits 60% of retiree's spouse, and 0% of surviving spouse will elect to participate.

The annual rate of increase in healthcare costs developed based on a review of published National trend survey data in relation to the retiree health plan offerings and updated long-term rates based on the Society of Actuaries Long Run Medical Cost Trend Model (v2019 b) (the Getzen model).

The actuarial assumptions used in the June 30, 2018 valuation were consistent with the requirements of GASB Statement No. 75 and the Actuarial Standards of Practice (ASOPs)

Effective in 2022, there will be a 40% excise tax on per capita medical benefit costs in excess of certain thresholds, which (in 2018) were \$10,200 for single coverage and \$27,500 for family coverage for Medicare eligible retirees. Thresholds (in 2018) for retirees who are between 55 and 65 are \$11,850 and \$30,950 for single and family coverage respectively. After 2018, the thresholds are indexed by CPI (CPI + 1% in 2018 only). CPI is assumed to equal the inflation assumption.

**NOTE 9 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

For its employee health and dental insurance coverage the Gouverneur Central School District is a participant in the St. Lawrence-Lewis Counties School District Employee Medical Plan, a public entity risk pool operated for the benefit of 18 individual governmental units located within the St. Lawrence and Lewis County areas. The School District pays an annual premium to the Plan for this employee health and dental insurance coverage. The St. Lawrence-Lewis County School Employee Medical Benefits Plan is considered a self-sustaining risk pool that will provide coverage for its members up to \$2,000,000 per insured event. The pool obtains independent coverage for insured events in excess of the \$2,000,000 limit, and the District has essentially transferred all related risk to the pool.

**NOTE 12 - COMMITMENTS AND CONTINGENCIES**

**Grants**

The District has received grants, which are subject to audit by agencies of the State and Federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, will be immaterial.

**Retirement Incentive**

The District does not accrue a liability for its retirement incentive because it is based on an uncontrollable future event. In accordance with the provisions of GASB #16, the value for the retirement incentive is considered a contingent liability. The District values this contingency at \$125,048.

**Construction Contracts**

The District has remaining commitments to various contractors for the current capital construction project totaling \$6,230,180 at June 30, 2019.

**NOTE 13 - USE OF ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

**NOTE 14 -TAX ABATEMENTS**

The County of St. Lawrence, enters into various property tax abatement programs for the purpose of economic development. The Industrial Development Agency (the Agency), created by Chapter 565 of the Laws of 1970 of the State of New York pursuant to Title I of Article 18-A of General Municipal Law of the State of New York (collectively “the Act”), has one real property tax abatement agreements with an entity in the District under Section 412-a of the New York State Real Property Tax Law and Section 874 of the Act for the purpose of economic development in the District. Generally, these agreements provide for an abatement of real property taxes in exchange for a payment in lieu of taxes (PILOT) based on the requirements noted in said individual agreements, the PILOT will discontinue as outlined in each agreement. Additionally, the Town of Fowler has entered into a residential PILOT with an entity. As a result of these tax abatement agreements, for the year ended June 30, 2019, the District’s property tax revenues were reduced by \$14,510. The District received payment in Lieu of Tax (PILOT) payments totaling \$13,121.

**NOTE 15 - SUBSEQUENT EVENTS**

The District has evaluated events and transactions that occurred between June 30, 2019 and September 26, 2019, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements. On August 6, 2019, the District issued a Bond Anticipation Note (BAN) in the amount of \$6,500,000 with a maturity date of June 26, 2020 for the capital project.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT**  
**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**JUNE 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Federal Financial Assistance presents the activity of all federal award programs administered by the District, which is described in Note 1 to the District's accompanying financial statements, using the modified accrual basis of accounting. Federal awards that are included in the schedule may be received directly from federal agencies, as well as federal awards that are passed through from other government agencies. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Indirect costs may be included in the reported expenditures, to the extent they are included in the federal financial reports used as the source for the data presented. Matching costs (the District's share of certain program costs) are not included in the reported expenditures. The District has not elected to use the 10 percent *de minimis* cost rate as covered in CFR200.414 Indirect (F&A) costs.

**NOTE 2 - SUB-RECIPIENTS**

No amounts were provided to sub-recipients.

**NOTE 3 - OTHER DISCLOSURES**

No insurance is carried specifically to cover equipment purchased with federal funds. Any equipment purchased with federal funds has only a nominal value, and is covered by the District's casualty insurance policies.

There were no loans or loan guarantees outstanding at year-end.

Federal awards non-cash assistance of \$21,347 was given from the USDA in the form of surplus food.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

To the Board of Education  
Gouverneur Central School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Gouverneur Central School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Gouverneur Central School District's basic financial statements and have issued our report thereon dated September 26, 2019.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Gouverneur Central School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion the effectiveness of the Gouverneur Central School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph in this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS  
(CONTINUED)**

**Compliance and Other Matters**

As a part of obtaining reasonable assurance about whether Gouverneur Central School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying schedule of findings and questioned costs as item 2019-001.

**District's Response to Finding**

Gouverneur Central School District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Gouverneur Central School District's response was not subjected to the auditing procedures applied in the audit and of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR  
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Education  
Gouverneur Central School District

**Report on Compliance for Each Major Federal Program**

We have audited Gouverneur Central School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Gouverneur Central School District's major federal programs for the year ended June 30, 2019. The Gouverneur Central School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of Gouverneur Central School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Gouverneur Central School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Gouverneur Central School District's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Gouverneur Central School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR  
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE  
(CONTINUED)**

**Report on Internal Control over Compliance**

Management of the Gouverneur Central School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Gouverneur Central School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Gouverneur Central School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
JUNE 30, 2019**

**SECTION I - SUMMARY OF AUDITORS' RESULTS**

**Financial Statements**

1. The auditors' report expresses an unmodified opinion on the general purpose financial statements of Gouverneur Central School District.
2. No significant deficiencies or material weaknesses relating to the audit of the financial statements are reported in the Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
3. One instance of noncompliance material to the financial statements of Gouverneur Central School District, which would be required to be reported in accordance with *Government Auditing Standards*, was disclosed during the audit, 2019-001.

**Federal Awards**

1. No significant deficiencies or material weaknesses relating to the audit of the major federal award programs were reported in the Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance.
2. The auditors' report on compliance for the major federal award programs for Gouverneur Central School District expresses an unmodified opinion on the programs tested as major federal programs.
3. No audit findings relative to the major federal award programs for Gouverneur Central School District that are required to be reported in accordance with 2 CFR section 200.516(a) reported in this Schedule.
4. The programs tested as major programs include:

**Identification of major programs**

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>
84.010	Title I Grants to Local Education Agencies
10.553	School Breakfast Program
10.555	National School Lunch Program
10.559	Summer Food Service Program for Children

5. The dollar threshold used to distinguish between Type A and Type B programs was \$750,000.
6. Gouverneur Central School District was determined to be a low-risk auditee.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
JUNE 30, 2019  
(CONTINUED)**

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**COMPLIANCE AND OTHER MATTERS**

**2019-01: Fund Balance: Real Property Tax Law**

***Condition and Criteria:*** The District's unassigned fund balance was in excess of the New York State Real Property Tax Law §1318 limit, which restricts it to an amount not greater than 4% of the District's budget for the upcoming school year.

***Cause:*** Fund balance was not monitored to ensure unassigned fund balance did not exceed the limit imposed by New York State Real Property Tax Law.

***Effect:*** The unassigned fund balance was in excess of the New York State Real Property Tax Law §1318 limit.

***Recommendation:*** We recommend that the district adhere to the 4% rule when preparing upcoming school year's budget by continually monitoring its fund balance to determine projected fund balance excesses before determining tax increases for the following year. The District should continue to utilize all reserves allowed by law to decrease excess fund balance. Fund balance should be managed starting in January and updated monthly throughout the rest of the fiscal year in order to project the unassigned portion and comply with NYS Real Property Tax Law §1318.

***Management's Response:*** The financial and economic condition of the school district could be affected by a variety of factors, some of which are beyond our control. Four percent of the district's FY2020 budget is \$1,471,553. Total Fund Balance decreased by \$143,757. However Total Reserves decreased by \$1,630,853 and Assigned Fund Balance also decreased by \$1,062,500 for a total reduction of \$2,693,353. Due to these reductions Unassigned Fund Balance increased by \$2,549,596. The District is looking to establish a Capital Reserve for future capital projects. The District's goal is to comply with all legal requirements.

## **INDEPENDENT AUDITORS' REPORT ON THE EXTRACLASSROOM ACTIVITY FUND**

To the Board of Education  
Gouverneur Central School District

We have audited the accompanying Statement of Assets, Liabilities and Fund Balance - Cash Basis of the Extraclassroom Activity Fund of Gouverneur Central School District as of June 30, 2019, the related Statements of Cash Receipts and Disbursements - Cash Basis, and the related note to the financial statements for the year then ended.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with a comprehensive basis of accounting other than generally accepted accounting principles in the United State of America as described in Note 1; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**INDEPENDENT AUDITORS' REPORT ON THE  
EXTRAClassroom Activity Fund (continued)**

**Opinion**

In our opinion, the financial statements referred to above presents fairly, in all material respects, the assets, liabilities, and fund balance – cash basis of the Extraclassroom Activity Fund of the Gouverneur Central School District as of June 30, 2019, and its cash receipts and cash disbursements – cash basis for the year then ended on the basis of accounting described in Note 1.

**Basis of Accounting**

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

**GOUVERNEUR CENTRAL SCHOOL DISTRICT  
EXTRAClassroom Activity Fund  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The transactions of the Extraclassroom Activity Funds are considered a part of the reporting entity of the Gouverneur Central School District. The transactions for the year are not included in the combined financial statements of the school district, but the June 30, 2019 cash balances are included in the Trust and Agency Fund.

The books and records of the Gouverneur Central School District's Extraclassroom Activity Funds are maintained on the cash basis of accounting. Under this basis of accounting, revenues are recognized when cash is received and expenditures recognized when cash is disbursed.

The School District's management requires that all activities included in the Extraclassroom Activity Fund meet the criteria for student activities as established by the New York State Education Department.
