I. District LEA Information

Page Last Modified: 03/03/2022

1. What is the name of the district administrator responsible for entering the Instructional Technology Plan data? Jacquelyn Kelly

2. What is the title of the district administrator responsible for entering the Instructional Technology Plan data? Superintendent

II. Strategic Technology Planning

Page Last Modified: 04/12/2022

1. What is the overall district mission?

Delivering the Promise of a Brighter Future for Our Students and Our Community.

Gouverneur Central School District, in collaboration with the community, is dedicated to educating all individuals, in a safe environment, to be passionate learners and responsible citizens in a global society.

2. What is the vision statement that guides instructional technology use in the district?

Provide technology resources to ensure the current and future needs of all users are met with efficient, sustainable systems for teaching, learning and support.

3. Summarize the planning process used to develop answers to the Instructional Technology Plan questions and/or your district comprehensive Instructional Technology Plan. Please include the stakeholder groups participating and the outcomes of the instructional technology plan development meetings.

The planning process for the Gouverneur Central School district included the following stakeholders: teacher representation from each of our three buildings, two building administrators, two community members, our CIO, our Instructional Technology Integration Specialist, our NERIC Technical Account Manager, and our Superintendent.

A survey, which was developed based on the required components of the technology plan, was sent out to all instructional staff and administration prior to our first meeting. The results of this survey, and the community survey that was sent out in November, helped us develop our goals and answer the required questions.

4. How does the district's Instructional Technology Plan build upon, continue the work of, and improve upon the previous three-year plan?

The District found great success with the previous plan. As a result, we will continue to advance those goals, while making improvements to reflect lessons learned seeking to build upon our success and utilize advancing technology to continue to move in a positive direction. Goal 1 - Equitable access to digital content for all learners: We will continue to strive to ensure that 100% of students have equitable access to devices and internet access, regardless of economic status or geographic location and level the playing field for students with disabilities and ELLs by exploring and purchasing improved assistive technology and teaching students how to use them to facilitate learning regardless of obstacles. Goal 2 - Enhanced learning Environments for All: The district will expand on its research of enhanced learning environments to determine best options for promoting equitable, student driven, collaborative learning. The district continues to strive to incorporate the learning, physical, and emotional needs of all students in their learning environments while still meeting the health and safety needs of all students and teachers. Goal 3 - Professional Development: As our technology constantly improves, we strive for 100% of teachers to be trained and effectively use technology in the classroom.

Goal 4 - Computer Science and Digital Fluency Standards: We will expand on our digital literacy goals by creating a robust curriculum map for the NYS Computer Science and Digital Fluency standards. We will not not only teach students to recognize the rights, responsibilities and opportunities of living, learning and working in an interconnected digital world, and to act and model in ways that are safe, legal and ethical, but also teach the 5 key concept areas of Impacts of Computing, Computational Thinking, Networks and System Design, Cybersecurity, and Digital Literacy.

II. Strategic Technology Planning

Page Last Modified: 04/12/2022

5. How does the district Instructional Technology Plan reflect experiences during the COVID pandemic?

Goal 1 - Equitable Access to all Content for Learners: The District purchased 200 hotspot devices during the pandemic to make sure that all students had access to digital content. The current plan will address the need to continue with the yearly purchase of data for the hotspot devices and will also include the purchase of hotspot devices for all school buses. This allows students the ability to access digital content before/after school hours, and it will provide the District the option of parking buses in public locations in order to provide internet access for our community. Goal 2 - Enhanced Learning Environments for All: We streamlined our digital learning platforms to make navigating those environments easier for students and parents. This decision was made after reviewing the results of a parent survey in the spring of 2020 in which parents stated that it was troublesome to have to navigate multiple learning platforms.

A replacement plan was developed to update classroom display panels. The new plan allows for the purchase of 24 Cleartouch panels each year. Goal 3 - Professional Development: The delivery of professional development in our district has changed during the pandemic. While we continue to offer in-person sessions, the need to offer virtual learning opportunities became necessary. Therefore, we now offer video conferencing and recorded videos for anytime access. A great deal of the professional development that has taken place during the pandemic has been offered by the District's Instructional Technology Integration Specialist.

Goal 4 - Curriculum Mapping of the Computer Science and Digital Fluency Standards: A student's digital fluency and ability to utilize technology in a safe and productive way became much more critical with the pandemic. This plan addresses our plan to make sure that the new Computer Science and Digital Fluency Standards are being addressed at every grade-level, kindergarten-12th grade.

6. Is your district currently fully 1:1?

Yes

7. Please describe the professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology vision as stated in response to question 2.

The professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology goals is in alignment with our District Professional Development Plan, which can be found on the Gouverneur Central School District's webpage. http://www.gcsk12.org/documents/pd-plan/

It is the policy of the District that attention be given to in-service, pre-service, and other staff development programs which are believed to be of benefit to the School District and its students. This includes ongoing instructional technology staff development opportunities to ensure the current and future needs of all users are met with efficient, sustainable systems for teaching, learning and support.

A variety of needs assessments, including technology surveys, in-person follow-ups, and ongoing opportunities for feedback, will be used to monitor the educational technology needs of the students and staff. The Superintendent, in consultation with the appropriate administrative staff, instructional technology coach, and/or teacher committees, will then arrange for targeted, needs-based, and personalized professional development opportunities to ensure the current and future needs of all users are met with efficient, sustainable systems for teaching, learning and support.

A spring/summer annual review will be conducted by the Professional Development Planning Team to discuss the evaluation data and to discuss any changes that need to be made to this plan. The plan will be updated following that meeting and sent to the Board of Education for review and approval.

III. Goal Attainment

Page Last Modified: 03/03/2022

Overview: In this new section, the District is asked to outline the extent to which they have achieved, at the local level, goals put forth in the 2010 Statewide Learning Technology Plan.

1. Digital Content – The District uses standards-based, accessible digital content that supports all curricula for all learners.

The district has met this goal:

Significantly

2. Digital Use – The District's learners, teachers, and administrators are proficient in the use of technology for learning.

The district has met this goal:

Significantly

 Digital Capacity and Access – The District's technology infrastructure supports learning and teaching in all of the District's environments.

The district has met this goal:

Significantly

4. Leadership – The District Instructional Technology Plan is in alignment with the Statewide Learning Technology Plan vision.

The district has met this goal:

Fully

5. Accountability – District-level information is posted on the District website, is easy to access, and is easily understood. Information provided includes the results achieved by the District in their efforts to enable students to build knowledge, master skills, and grasp opportunities for a better life. The district has met this goal:

Significantly

IV. Action Plan - Goal 1

Page Last Modified: 03/06/2022

1. Enter Goal 1 below:

Ensure that 100% of students and staff members have equitable access to digital content and online learning experiences.

2. Select the NYSED goal that best aligns with this district goal.

Increase equitable access to high-quality digital resources and standards-based, technology-rich learning experiences

3. Target Student Population(s). Check all that apply.

- ☑ All students
- □ Early Learning (Pre-K -3)
- □ Elementary/intermediate
- □ Middle School
- □ High School
- □ Students with Disabilities
- English Language Learners
- Students who are migratory or seasonal farmworkers, or children of such workers
- Students experiencing homelessness and/or housing insecurity

- Economically disadvantaged students
- □ Students between the ages of 18-21
- Students who are targeted for dropout prevention or credit recovery programs
- Students who do not have adequate access to computing devices and/or high-speed internet at their places of residence
- Students who do not have internet access at their place of residence
- □ Students in foster care
- □ Students in juvenile justice system settings
- □ Vulnerable populations/vulnerable students
- □ Other (please identify in Question 3a, below)

4. Additional Target Population(s). Check all that apply.

- ☑ Teachers/Teacher Aides
- ☑ Administrators
- Parents/Guardians/Families/School Community
- Technology Integration Specialists
- □ Other
- 5. How will this instructional technology goal be measured and evaluated during and after implementation? Be sure to include any tools and/or metrics that are part of this evaluation process. Examples might be formative data, local, state, and/or national LEA benchmarks, metrics from instructional software, other technology evaluation programs, etc.

A Digital Equity Survey will be used twice a year to collect accurate data regarding digital resource access for our students and staff. This will greatly help educators to better serve their students and families.

Assistive technology software will be renewed annually and pushed out to all users via the Google console.

Students will receive training via videos and direct-instruction on how to use the software.

MyLearningPlan attendance records of teacher training will be used to identify teachers that have been trained in how to use the assistive technology software.

6. List the action steps that correspond to Goal #1 from your answer to Question 1, above. All cells in the table must be populated. If you have less than four action steps for this goal, you must enter N/A into columns two, three, four, five, and seven, and choose June 30, 2021 in the date column for all unneeded rows in the table.

	Action Step		Responsible Stakeholder:	•	Anticipa ted	Anticipated Cost
					date of

IV. Action Plan - Goal 3

Page Last Modified: 04/12/2022

1. Enter Goal 3 below:

- Provide relevant and rigorous professional development in the area of instructional technology, with a focus on:
- District technology purchases (Cleartouch Panels, instructional software, etc.) that will be used to enhance teaching and learning
- · Implementation of the New York State Computer Science and Digital Fluency Standards

2. Select the NYSED goal that best aligns with this district goal.

Provide access to relevant and rigorous professional development to ensure educators and leaders are proficient in the integration of learning technologies

3. Target Student Population(s). Check all that apply.

- ☑ All students
- □ Early Learning (Pre-K -3)
- □ Elementary/intermediate
- □ Middle School
- High School
- □ Students with Disabilities
- English Language Learners
- Students who are migratory or seasonal farmworkers, or children of such workers
- Students experiencing homelessness and/or housing insecurity

- Economically disadvantaged students
- □ Students between the ages of 18-21
- Students who are targeted for dropout prevention or credit recovery programs
- Students who do not have adequate access to computing devices and/or high-speed internet at their places of residence
- Students who do not have internet access at their place of residence
- □ Students in foster care
- □ Students in juvenile justice system settings
- □ Vulnerable populations/vulnerable students
- □ Other (please identify in Question 3a, below)

4. Additional Target Population(s). Check all that apply.

- ☑ Teachers/Teacher Aides
- ☑ Administrators
- ☑ Parents/Guardians/Families/School Community
- Technology Integration Specialists
- □ Other
- 5. How will this instructional technology goal be measured and evaluated during and after implementation? Be sure to include any tools and/or metrics that are part of this evaluation process. Examples might be formative data, local, state, and/or national LEA benchmarks, metrics from instructional software, other technology evaluation programs, etc.

Professional development opportunities will be scheduled based on staff request (biannual survey), compliance (ed Law 2-d, etc.), hardware and software purchased to support enhanced learning environments, and data collected from state and local assessments. Participants will be required to complete an evaluation at the conclusion of each learning opportunity. The evaluations will guide the administration team as they plan for future professional development opportunities.

6. List the action steps that correspond to Goal #3 from your answer to Question 1, above. All cells in the table must be populated. If you have less than four action steps for this goal, you must enter N/A into columns two, three, four, five, and seven, and choose June 30, 2021 in the date column for all unneeded rows in the table.

No

V. NYSED Initiatives Alignment

Page Last Modified: 03/03/2022

1. Explain how the district use of instructional technology will serve as a part of a comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.

Instructional technology allows instruction to become more student-centered. All students, especially students with disabilities and English language learners will learn lifelong skills to access information as well as to reach rigorous content. Technology can increase parental involvement, which is an important factor for learning. Instructional technology facilitates inquiry based projects that help students build communication skills, critical thinking, and problem solving.

2. Explain the strategies the district plans to implement to address the need to provide equitable learning "everywhere, all the time" (National Technology Plan). Include both short and long-term solutions, such as device access, internet access, human capacity, infrastructure, partnerships, etc.

The district strives to ensure that 100% of students have equitable access to devices and internet access, regardless of economic status or geographic location.

- All students will be provided with a device that will allow them to connect to curriculum content.
- Students who are unable to complete learning activities, including video streaming and assignment upload, without interruptions caused by a slow or poor internet performance are provided with a hotspot device.

• Students, teachers, and staff members have access to a robust internet connection while on campus.

3. Students with disabilities may be served through the use of instructional technology as well as assistive technology devices and services to ensure access to and participation in the general education curriculum. Describe how instruction using technology is differentiated to support the individual learning needs of students with disabilities.

Instruction using technology is differentiated at Gouverneur Central School to support the individualized learning needs of students with disabilities in the following ways.

- · Every student is provided with a device and assistive technology that takes into account their specific learning and physical needs.
- Student learning platforms, such as Google classroom and Seesaw, are being used to push out differentiated learning activities so that every learner has access to their own learning activities.
- Accessibility software, such as Kami, Read&Write, and Chrome's built-in accessibility tools are being utilized independently by students to address
 their individualized learning needs.
- Adaptive remediation software, such as Lexia, IXL, and Dreambox, is being used with all k-8 students and high school special education students.
- Visually impaired students are provided with a laptop that has the JAWS software downloaded.
- In the case of students with movement or walking disabilities they are no longer required to walk to the board at the front of the classroom. The instructor can designate their chromebook for casting to the interactive display.
- The interactive touch panels allow students with learning disabilities to peer review, collaborate, and visually participate in learning activities with immediate feedback and no embarrassment or ostracization that can occur in a traditional learning environment.

4. How does the district utilize technology to address the needs of students with disabilities to ensure equitable access to instruction, materials, and assessments? Please check all that apply from the provided options and/or check 'Other' for options not available on the list.

- Class lesson plans, materials, and assignment instructions are available to students and families for "anytime, anywhere" access (such as through a class website or learning management system).
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- 🗵 Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- \blacksquare Assistive technology is utilized.
- \blacksquare Technology is used to increase options for students to demonstrate knowledge and skill.
- \blacksquare Learning games and other interactive software are used to supplement instruction.
- □ Other (please identify in Question 4a, below)

V. NYSED Initiatives Alignment

Page Last Modified: 03/03/2022

- 5. Please select the professional development that will be offered to teachers of students with disabilities that will enable them to differentiate learning and to increase student language and content learning through the use of technology. Please check all that apply from the provided options and/or check 'Other' for options not available on the list.
 - Technology to support writers in the elementary classroom
 - Technology to support writers in the secondary classroom
 - ☑ Research, writing and technology in a digital world
 - Enhancing children's vocabulary development with technology
 - Reading strategies through technology for students with disabilities
 - Choosing assistive technology for instructional purposes in the special education classroom
 - Using technology to differentiate instruction in the special education classroom

- Using technology as a way for students with disabilities to demonstrate their knowledge and skills
- Multiple ways of assessing student learning through technology
- ☑ Electronic communication and collaboration
- Promotion of model digital citizenship and responsibility
- Integrating technology and curriculum across core content areas
- Helping students with disabilities to connect with the world
- □ Other (please identify in Question 5a, below)
- 6. How does the district utilize technology to address the needs of English Language Learners to ensure equitable access to instruction, materials, and assessments? Please check all that apply from the provided options and/or check 'Other' for options not available on the list.
 - Class lesson plans, materials, and assignment instructions are available to students and families for "anytime, anywhere" access (such as through class website or learning management system).
 - Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
 - Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
 - Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
 - ☑ Home language dictionaries and translation programs are provided through technology.
 - 🗹 Hardware that supports ELL student learning, such as home-language keyboards, translation pens, and/or interactive whiteboards, is utilized.
 - Technology is used to increase options for students to demonstrate knowledge and skill, such as through the creation of a product or recording of an oral response.
 - ☑ Learning games and other interactive software are used to supplement instruction.
 - □ Other (Please identify in Question 6a, below)
- 7. The district's Instructional Technology Plan addresses the needs of English Language Learners to ensure equitable access to instruction, materials, and assessments in multiple languages.

Yes

7a. If Yes, check one below:

In the 5 languages most commonly spoken in the district

7b. If 'Other' was selected in 7a, above, please explain here.

- 10. How does the district use instructional technology to facilitate culturally responsive instruction and learning environments? Please check all that apply from the provided options and/or check 'Other' for options not available on the list.
 - The district uses instructional technology to strengthen relationships and connections with families to assist in building a culturally responsive learning environment to enhance student learning.
 - ☑ The district uses instructional technology to facilitate classroom projects that involve the community.
 - The district uses instructional technology to develop and organize coherent and relevant units, lessons, and learning tasks that build upon students' cultural backgrounds and experiences.
 - The district uses instructional technology to assist in varying teaching approaches to accommodate diverse learning styles and language proficiencies.
 - The district uses instructional technology to enable students to communicate and collaborate with students in different schools or districts in New York State, the United States, or with different countries.
 - ☑ The district uses instructional technology to facilitate collaborative classroom projects among heterogeneous student groups.
 - □ Other (please identify in Question 10a, below)

VI. Administrative Management Plan

Page Last Modified: 04/06/2022

1. Staff Plan

Provide the Full-Time Equivalent (FTE) count, as of plan submission date, of all staff whose primary responsibility is delivering technology integration training and support and/or technical support.

	Full-time Equivalent (FTE)
District Technology Leadership	0.00
Instructional Support	1.00
Technical Support	2.00
Totals:	3.00

2. Investment Plan

Provide a three-year investment plan to support the vision and goals. All costs must be calculated for the entire three year-period, not annualized. For example, if a cost occurs annually, the estimated cost should include the annual cost times three.

Provide a three-year investment plan to support the vision in Section II and goals in Section IV.

A chart with drop-down choices is provided in order for NYSED to obtain consistent responses to this question. All cells in the table must be populated. If you have less than four items in your plan, you must choose N/A for columns one, two, four, five and six, and put zero in column three (estimated cost) for each unneeded row.

	Anticipated Item or Service	"Other" Anticipated Item or Service	Estimated Cost	Is Cost One-time, Annual, or Both?	Potential Funding Source	"Other" Funding Source

VII. Sharing Innovative Educational Technology Programs

Page Last Modified: 03/03/2022

Please choose one or more topics that reflect an innovative/educational technology program that has been 1. implemented for at least two years at a building or district level. Use 'Other' to share a topic that is not on the list.

- □ 1:1 Device Program □ Active Learning
- Spaces/Makerspaces
- □ Blended and/or Flipped Classrooms
- □ Culturally Responsive Instruction □ Infrastructure with Technology
- □ Data Privacy and Security
- Digital Equity Initiatives
- Digital Fluency Standards

- □ Engaging School Community through Technology
- □ English Language Learner □ Instruction and Learning with
- Technology
- □ OER and Digital Content
- □ Online Learning
- Personalized Learning

- Delicy, Planning, and Leadership
- Professional Development / Professional Learning
- □ Special Education Instruction and Learning with Technology
- Technology Support
- □ Other Topic A
- □ Other Topic B
- □ Other Topic C
- 2. Provide the name, title, and e-mail of the person to be contacted in order to obtain more information about the innovative program(s) at your district.
