

WellSAT 2.0 (Local School Wellness Policy Assessment)						
District	Pre Adoption Date*	Post Adoption Date*	Pre Total Comprehensiveness	Post Total Comprehensiveness	Pre Total Strength	Post Total Strength
Gouverneur	2015	2017	52	86	14	35

*Year local school wellness policy (#5661 or #5662) was Board of Education revised and/or adopted (not necessarily year of development or assessment).

From: <http://www.wellsat.org/>:

“The WellSAT will give you two scores: a **comprehensiveness** score, which reflects the extent to which recommended content areas are covered in the policy; and a **strength** score, which describes how strongly the content is stated. Both scores range from 0-100, with lower scores indicating less content and weaker language, and higher scores indicating more content and use of specific and directive language.”

“It is important to communicate that the scores should not be interpreted like letter grades. We tested this tool in 2018 in a sample of 50 school districts around the country and the average comprehensiveness score was 54 and the average strength score was 33.”
